In accordance with 820 ILCS 130/5, The Contractor and each subcontractor shall make and keep, for a period of not less than 5 years, records of all laborers, mechanics and other workers employed by them on the Project. The records must include the worker's name, the worker's address, the worker's telephone number when available, the last four digits of the worker's social security number, the worker's gender, the worker's race, the worker's ethnicity, veteran status, the worker's classification or classifications, the worker's gross and net wages paid in each pay period, the worker's number of hours worked each day, the worker's starting and ending times of work each day, the worker's hourly wage rate, the worker's hourly overtime wage rate, the worker's hourly fringe benefit rates, the name and address of each fringe benefit fund, the plan sponsor of each fringe benefit, if applicable, and the plan administrator of each fringe benefit, if applicable.

The Contractor and each subcontractor must, no later than the fifteenth day of each calendar month, file a certified payroll for the immediately preceding month with the IDOL using its online database and also with the Public Agency in charge of the project. A certified payroll must be filed for only those calendar months during which construction on a public works project has occurred. The certified payroll must consist of a complete copy of the records required by 820 ILCS 130/5(a)(1), except the starting and ending times of each work day. The certified payroll must also be accompanied by a statement signed by the Contractor or subcontractor or an officer, employee, or agent of the Contractor or subcontractor representing that:

- (i) he or she has examined the certified payroll records required to be submitted by the Wage Act and such records are true and accurate;
- (ii) the hourly rate paid to each worker is not less than the general prevailing rate of hourly wages required by the Wage Act; and
- (iii) the Contractor or the subcontractor is aware that filing a certified payroll that he or she knows to be false is a Class A misdemeanor.

The Contractor must also post, at a location on the project site of the public works that is easily accessible to the workers engaged on the project, the prevailing wage rates for each craft or type of worker or mechanic needed to execute the Contract or project or work to be performed. In lieu of posting on the project site, a Contractor which has a business location where laborers, workers, and mechanics regularly visit may: (1) post in a conspicuous location at that business the current prevailing wage rates for each county in which the Contractor is performing work; or (2) provide such laborer, worker, or mechanic engaged on the public works project a written notice indicating the prevailing wage rates for the public works project. The failure to post or provide the requisite prevailing wage rate is a violation of the Wage Act.

Upon seven business days' notice, the Contractor and each subcontractor shall make available for inspection and copying at a location within this State during reasonable hours, the records identified in 820 ILCS 130/5(b) to the Bolingbrook Park District, its officers and agents, and to the Director of Labor and his deputies and agents. The Contractor and each subcontractor shall permit his or her employees to be interviewed on the job, during working hours, by compliance investigators of the Department or the Department of Labor.

PLAN ROOM COPY - NOT FOR BID

SPECIFICATIONS

The work described in the specifications shall consist of the provision of all material, equipment, and labor necessary to apply pavement sealer to pavement at all locations described herein. This application serves as weather protection, beautification of surface, and aliphatic-solvent resistant sealer for bituminous pavements.

Materials

Polymer-Modified MasterSeal product. See attached specs on product for bidding. "As equal" product may be included in bid with approval from Superintendent of Projects & Loss Prevention prior to submittal of bid.

Equipment

- a) All tools and equipment necessary to perform the contract in accordance with the specified terms and conditions, such as brushes, hand squeegees, pumps and hose equipment, storage tanks, mixing tanks, water distributors, power sweepers, blowers, barricades and applicator equipment shall be provided as required by the contractor. All methods employed in performing the work and all equipment necessary for executing any part of the work shall be subject to approval by the Superintendent of Projects & Loss Prevention before work is started, and whenever found unsatisfactory will be changed or improved. All equipment will be kept clean and in working condition.
- b) Pressure distributors used on the job will have mechanical mixing devices incorporated in their construction to assure homogenous mixing of the emulsion and required additives. The plumbing distribution system must be adequate to apply a uniform coating at the specified rates of application.
- c) Conventional riding applicator equipment used on the job will have two or more devices such as squeegees and/or drag broom assemblies to assure even distribution of the tar emulsion and required additives.
- d) Mixing or agitating equipment may be either portable powered or a tank-type power mixer. In any case, mixers shall be of sufficient capacity to assure homogeneous mixing of the emulsion and required additives, and to maintain complete suspension of mineral content until the emulsion system is applied to the pavement.

Preparation of Surfaces

- a) The total linear feet of pavement cracks to be filled with hot crack filler is limited to the allowance found on the bid form. Bidders shall provide a cost based on the linear foot allowance. Pavement cracks between $\frac{1}{4}$ " – $\frac{1}{2}$ " wide shall be fully cleared of debris and filled with hot crack filler in its entirety. The Bolingbrook Park District reserves the right to increase or reduce the amount of crack filling and shall use the unit cost provided by the bidder. If there is a need to add additional crack filler (at Contractor's discretion) to help with longevity of asphalt, a formal 'Change Order' must be submit with requested L.F. and approved by Owner prior to additional work being conducted.
- b) Areas that have been subjected to fuel and oil spillage, that is not permanently damaged or softened, shall be wire brushed or scraped to remove any excess dirt and grease accumulations. Solvents shall not be used for cleaning. The area shall then be primed with acrylic copolymer latex such as Spot-X (TM) to provide proper bonding on the sealcoat.

- c) Old traffic control lines (not being re-stripped at Owners discretion) may be blackened with gilsonite asphalt, black epoxy, or black acrylic coatings. Excessive build up lines should be abraded before new sealcoat is applied.
- d) Immediately before application of sealer, clean the surface of all loose dust, dirt, leaves, and any other foreign materials by sweeping, blowing, or flushing with water, or any combination of the three.
- e) No crack filling on sport courts without prior approval by Owner.
- f) **SEALCOATING IS NOT A CRACK FILLING PROCESS & SHOULD NOT BE TREATED AS SUCH.**

Application

- a) Two coats are required to be applied in all areas within bid. **Coats should be applied in two phases, not doubling up on one application.**
- b) **FIRST COAT:**
 - 1) Application may be made by hand brushes, squeegees, or mechanical applicators. Coverage will depend on texture, porosity, and condition of the surface. A reasonable planning figure is roughly 75-100 square feet to the gallon.
 - 2) Allow sealer to dry thoroughly before opening to traffic or applying a second coat. Drying times vary with weather conditions, but at least 6 to 24 hours is normally needed before applying a second coat. Sheltered or shady areas may need more drying time.
- c) **SECOND COAT:**
 - 1) The surface for a second coat does not normally need to be dampened.
 - 2) The second coat shall be applied at right angles to the first coat.
 - 3) Allow the second coat to thoroughly dry (24 to 48 hours, if possible, under optimum conditions) before opening to traffic.
- d) Sealer is to not be applied unless the air temperature is 50° F and rising and pavement temperature is 50° F and rising. Work will be completed so that there is a minimum of two hours of sunlight remaining after completing the day's work. Sealer will not be applied under rainy or wet conditions such as an overcast day with high humidity. When extremely hot conditions prevail, the contractor or the Superintendent of Projects & Loss Prevention may require the use of a water fog coat to cool the pavement to assist in obtaining a uniform coating and good bond. UNDER NO CIRCUMSTANCES will work be performed under cold and/or wet conditions. Temperatures should not go below 50° F in any of the 24 hours following application.
- e) The mixture shall be permitted to dry for a minimum of 24 hours after the final application before opening to traffic and shall be sufficiently cured to drive over without damage to the seal coat.
- f) Upon completion of the work, the sealcoat shall have no pin holes, bare spots, clumping or cracks through which liquids or foreign matter could penetrate to the underlying pavement. The finished surface shall present a uniform texture.
- g) Contractor is required to remove all barriers, posts, strings provided by Contractor at all sites to reopen each area after drying has occurred. Signs & barricades provided by the Park District will be removed by Park District staff.
- h) **Contractor is required to provide Owner the L.F. of crack fill used by park site in writing at the conclusion of project along with the pay application.**

Parking Lot Striping

- a) Striping to be done with chlorinated rubber traffic paint (Glidden or equal). No striping will commence until the seal coat to be striped has cured for at least 24 hours. Striping shall be 4" wide, neatly sprayed with no over spray permitted.
- b) Accessible parking spaces shall conform to current IDOT and ADA standards. Follow existing striping and pavement markings.
- c) All painted curbs that have been previously painted shall be included in bid price.
- d) Stop bars and crosswalks shall be painted on pathways and roads to match existing.
- e) Striping color shall match the existing color as visible prior to seal coat application. This includes the blue & white striping / decals at the accessible spaces.
- f) Striping must take place as soon as conditions allow.

Sport Court Striping

- a) Striping to be done with chlorinated rubber traffic paint (Glidden or equal). No striping will commence until the seal coat to be striped has cured for at least 24 hours. Striping shall be 4" wide, neatly sprayed with no over spray permitted.
- b) Striping color shall match the existing color as visible prior to seal coat application.
- c) Striping must take place as soon as conditions allow.

Explanations WILL COUNTY

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

Prevailing Wage Act
Contractor/Subcontractor Requirements**

The Illinois Prevailing Wage Act, 820 ILCS 130/.01 *et seq.* (“the Act”) required contractors and subcontractors to pay laborers, workers and mechanics performing services on public works projects no less than the “prevailing rate of wages” (hourly cash wages plus fringe benefits) in the county where the work is performed. For information regarding current prevailing wage rates, please refer to the Illinois Department of Labor’s website at:

<https://www2.illinois.gov/idol/Laws-Rules/CONMED/Pages/Rates.aspx>

All contractors and subcontractors rendering services under this contract shall comply with all requirements of the Act to the extent applicable, *including but not limited to*, all wage, notice and record keeping duties.

IMPORTANT NOTICE OF RESPONSIBILITY FOR PERIODIC REVISIONS TO PREVAILING WAGE RATES

Revisions of the following Prevailing Wage Rates are made periodically by the Illinois Department of Labor. These may be accessed by computer at <https://www2.illinois.gov/idol/Laws-Rules/CONMED/Pages/Rates.aspx>. As required by the Prevailing Wage Act, any and all such revisions supersede the Department of Labor’s December determination. Bidders and Contractors performing work on this Project are responsible for determining the applicable prevailing wage rates at the time of bid submission and performance of the Work. Failure of a Bidder/Contractor to make such determination shall not relieve it of its obligations in accordance with the Contract Documents. In consideration for the award to it of the Contract for this Project, the Contractor agrees that the foregoing notice satisfies any obligation of the public body in charge of this Project to notify the Contractor of periodic changes in the prevailing wage rates and the Contractor agrees to assume and be solely responsible for, as a material obligation of the Contractor under the Contract, the obligation to determine periodic revisions of the prevailing wage rates, to notify its subcontractors of such revisions, to post such revisions as required for the posting of wage rates under the Act, and to pay and require its subcontractors to pay wages in accordance with such revised rates.

I hereby agree to adhere to all requirements of the State of Illinois Prevailing Wage Act.

Section I. This EQUAL EMPLOYMENT OPPORTUNITY CLAUSE is required by the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights published at 44 Illinois Administrative Code Section 750, *et seq.*

Section II. In the event of the Contractor's noncompliance with any provision of this Equal Employment Opportunity Clause, the Illinois Human Right Act, or the Rules and Regulations for Public Contracts of the Department of Human Rights (hereinafter referred to as the Department) the Contractor may be declared non-responsible and therefore ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations, and this agreement may be canceled or voided in whole or in part, and other sanctions or penalties may be imposed or remedies involved as provided by statute or regulation. During the performance of this Agreement, the Contractor agrees:

- A. That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, marital status, order of protection status, national origin or ancestry, citizenship status, age, legal source of income, physical or mental disability unrelated to ability, military status or an unfavorable discharge from military service; and,

further, that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate action to rectify any underutilization.

- B. That, if it hires additional employee in order to perform this Agreement, or any portion hereof, it will determine the availability (in accordance with the Department's Rules and Regulations for Public Contracts) of minorities and women in the area from which it may reasonably recruit and it will hire for each job classification for which employees are hired in a way that minorities and women are not underutilized.
- C. That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, sexual orientation, marital status, order of protection status, national origin or ancestry, citizenship status, age, legal source of income, physical or mental disability unrelated to ability, military status or an unfavorable discharge from military service.
- D. That it will send to each labor organization or representative of workers with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the Contractor's obligations under the Illinois Human Rights Act and Department's Rules and Regulations for Public Contract.
- E. That it will submit reports as required by the Department's Rules and Regulations for Public Contracts, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and Department's Rules and Regulations for Public Contracts.
- F. That it will permit access to all relevant books, records, accounts and work sites by personnel of the contracting agency and Department for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and Department's Rules and Regulations for Public Contracts.
- G. That it will include verbatim or by reference the provisions of this Equal Employment Opportunity Clause in every subcontract it awards under which any portion of this Agreement obligations are undertaken or assumed, so that such provisions will be binding upon such subcontractor. In the same manner as the other provisions of this Agreement, the Contractor will be liable for compliance with applicable provisions of this clause by such subcontractors; and further it will promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply therewith. In addition, the Contractor will not utilize any subcontractor declared by the Illinois Human Rights Department to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

Section III. For the purposes of subsection G of Section II, "subcontract" means any agreement, arrangement or understanding, written or otherwise, between the Contractor and any person under which any portion of the Contractor's obligations under one or more public contracts is performed, undertaken or assumed; the term "subcontract", however, shall not include any agreement, arrangement or understanding in which the parties stand in the relationship of an employer and an employee, or between a Contractor or other organization and its customers.
