Indian Boundary Fence Update – Chris Corbett updated the board regarding the fence and issue with residents:

- There are trees (two Silver Maples and other invasive species trees / shrubs) along the existing fence line at Indian Boundary (on park district property) that are pushing on the fence causing the fence to fall.
- Staff reviewed the GIS (Geographical Information System) to review existing property lines to see where trees fall prior to staff removing.
- Upon reviewing GIS, staff saw existing fence is approx. 15 feet west of actual property line.
- Staff then hired Surveyor to obtain actual survey data.
- Survey confirmed property lines are actually 14 feet within Churchill Residents current property.
- Tressler LLP was contacted to verify if the park district should still recommend contract for purchase / installation of fence (intended to be placed at existing location). Residents currently have personal items on park district property.

- Staff went house-to-house (12 houses) on Monday, February 13 with letter to discuss replacement of fence and removal of trees (that are within residents' fence line, but on park district property) to gauge feedback / concerns. Five residents had no questions.
- One resident installed a gate on park district fence line to allow access for their boat to go in and out at the backside of their house. They modified the fence without park district approval.
- Chris met with the Administrative Team and it was agreed the park district should not allow residents to modify park district property for their personal use.

Commissioner Hix asked if this was the existing fence on the west side of Indian Boundary Road, Chris replied "yes". Chris said the new fence will be placed in the same location where the old fence is.

Chris will reach out the residents to let them know when the tree removal will begin. Staff will not encroach on resident's property to remove trees.

The board had no further questions.
